SPOTLIGHT:

South Bend's Abandoned Property Initiative

CityVoice collected feedback from residents in South Bend Ind. on over 1000 vacant and abandoned properties in the city. This open feedback helped catalyze public conversations and the structured opinion data and messages will help the city prioritize its actions on specific properties. www.southbendvoices.com

EASY for STAFF & RESIDENTS

CityVoice was designed to make giving feedback as accessible and simple as possible. All that is required is a telephone. Once collected, feedback can be measured and reviewed online making it easy for staff to see trends and drill down and understand the reasons behind public opinion.

FEATURES

- **Location Based**
Feedback is connected to location, giving deeper insights.
- **Qualitative & Quantitative Feedback**
Structured poll data is augmented by explanatory voice messages.
- **Notifications for New Feedback**
Sign up to receive email notifications when new feedback is left.
